SAVE THIS MANUAL: KEEP THIS MANUAL FOR SAFETY WARNINGS, PRECAUTIONS, ASSEMBLY, OPERATING, INSPECTION, MAINTENANCE AND CLEANING PROCEDURES. WRITE THE PRODUCT'S SERIAL NUMBER ON THE BACK OF THE MANUAL NEAR THE ASSEMBLY DIAGRAM (OR MONTH AND YEAR OF PURCHASE IF PRODUCT HAS NO NUMBER).

FOR QUESTIONS PLEASE CALL OUR CUSTOMER SUPPORT: (909) 628 0880 MON-FRI 9AM TO 3PM PST

It is important that you read the entire manual to become familiar with the unit before you begin assembly.

The Operator

Common sense and caution are factors which cannot be built into any product. These factors must be supplied by the operator. Please remember:

- Do not use the product if under the influence of alcohol or drugs.
- Read warning labels on prescriptions to determine if your judgment/reflexes might be impaired.
- Do not wear loose clothing or jewelry as they can be caught in moving parts.
- Protective gloves and non-skid footwear is recommended.
- Wear restrictive hair covering to contain long hair.
- Use eye and ear protection. Always wear: ANSI-approved impact safety goggles.
- Maintain proper footing and balance at all times.

Work Area

To avoid risk of personal injury, equipment damage, fire and shock, make sure your work area is:

- Free of damp, wet or rainy conditions
- Free of children (never let them handle tools or machinery) well-lit
- Clean and uncluttered

Before Operating

- Before using any tool, any part that appears damaged should be carefully checked to determine that it will operate properly and perform its intended function.
- Before using your Slide Hammer check for damaged parts.
- When operating keep hands and fingers out of the way of the hand weight.

- It is Important that your read the entire manual to become familiar with the unit before you use the Slide Hammer, before assembling your Slide Hammer, be sure that you have all parts describe in the Parts Information on page 4,5.
- Assemble and disassemble your Slide Hammer set for each use.
- Put back all pieces in the carrying case provided and store in carrying case to ensure that no pieces are lost.

Operation

The Slide Hammer comes with a complete set of Pullers for various pulls. Each of the attachments Included in the Slide Hammer set have been designed for a specific use. Although uses differ, the Following steps for Hasp Pulling are generally applicable for all other attachments.

When operating ,keep hands and fingers out Of the way of the Castiron Hammer.

Hasp pulling

Step 1) Attach most suitable Hasp Iron (Part #2,#3,#5 or #7) to the threaded end of the Slide Hammer.

Step 2) Identify the lip area or edge of the object you will be inserting the chosen hasp into or onto.

Step 3) Place the Hasp into/onto the edge or lip of the object to be pulled.

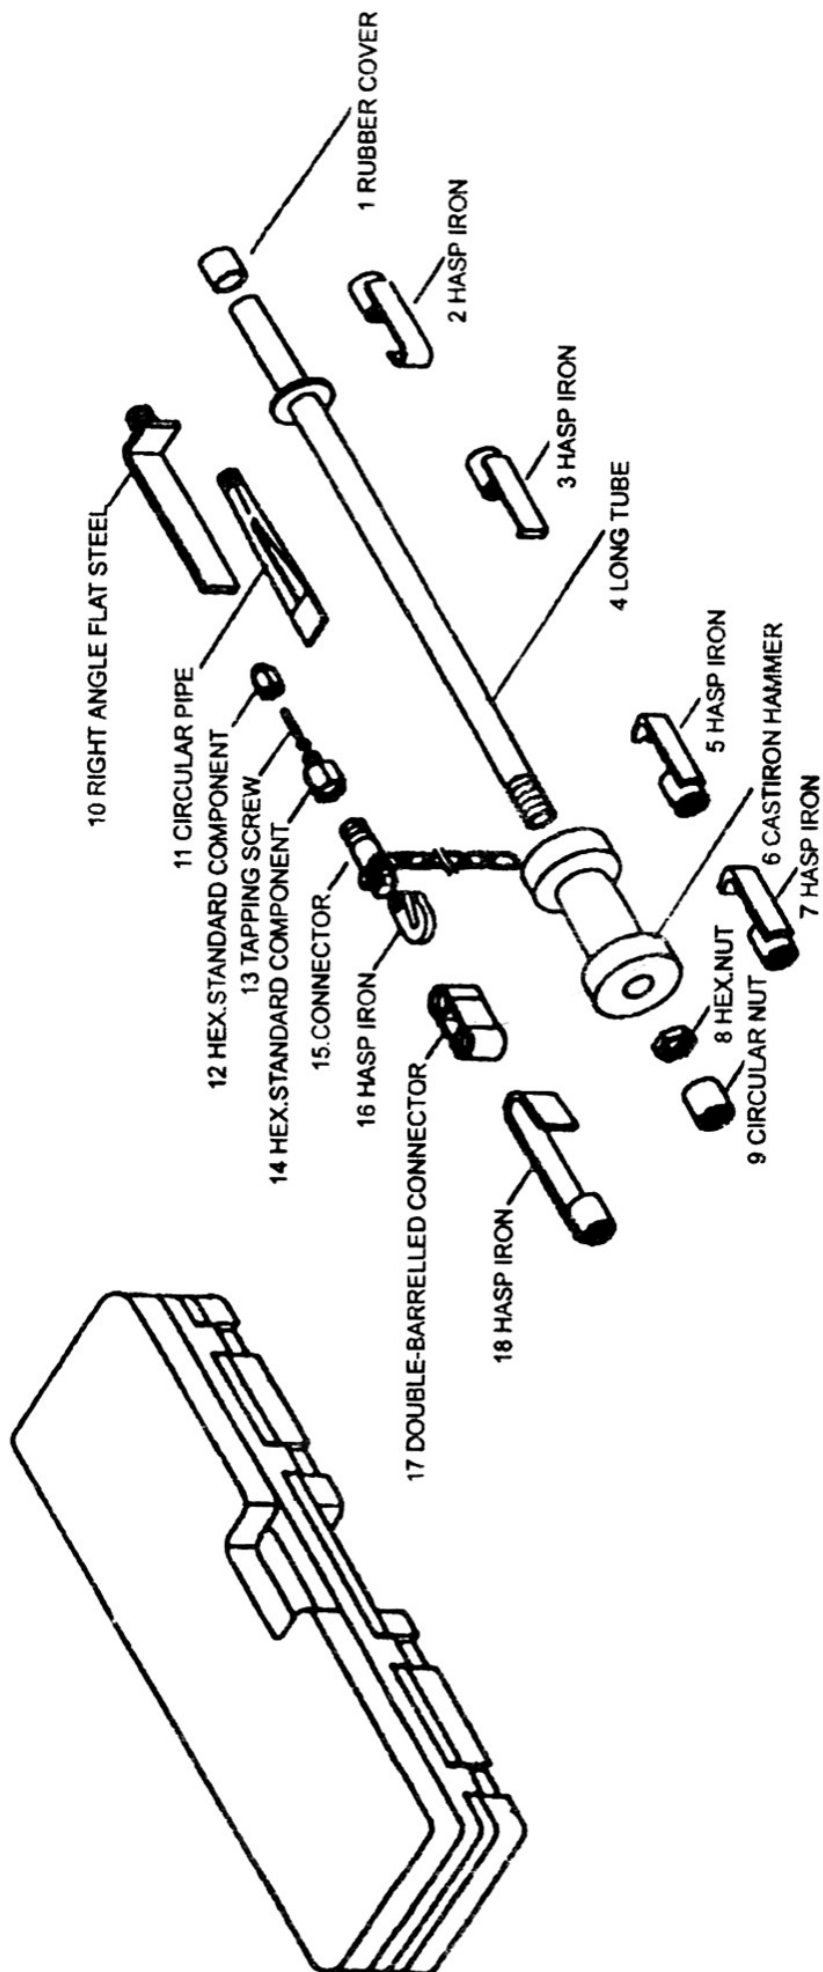

Step 4) Push the Casting Hammer toward the object to be pulled. Forcefully pull the

castiron Hammer back towards the Handle, using the force of Castiron Hammer and the impact on the Hammer to pull out the object.

Step 5) Repeat Step 4 until the object has been pulled out.
