

## GENERAL SAFETY WARNINGS

SERIOUS BODILY INJURY OR DEATH CAN RESULT IF THIS PUMP AND SAND FILTER IS NOT INSTALLED AND USED CORRECTLY. INSTALLERS, POOL OPERATORS AND POOL OWNERS MUST READ THESE WARNINGS AND ALL INSTRUCTIONS BEFORE USING THIS PUMP AND SAND FILTER.

## SAFETY

---

Most states and local codes regulate the construction, installation, and operation of public pools and spas, and the construction of residential pools and spas. It is important to comply with these codes, many of which directly regulate the installation and use of this product. Consult your local building and health codes for more information.

**IMPORTANT: Attention Installer: This Installation and User's Guide contains important information about the installation, operation and safe use of this pump and sand filter. This Guide should be given to the owner and/or operator of this equipment.**

- The sand filters are designed to work with water temperature  $> 0^{\circ} \text{C}$  and  $<$  than  $45^{\circ} \text{C}$ . The filter should never be operated outside of these temperatures or damage may occur. The installation should be carried out in accordance to the safety instructions of swimming pools and the specific instructions for each facility.
- A pool or spa pump must be installed by a qualified pool and spa service professional in accordance with the National Electrical Code and all applicable local codes and ordinances. Improper installation may create an electrical hazard which could result in death or serious injury to pool users, installers, or others due to electrical shock, and may also cause damage to property
- To reduce the risk of injury, do not permit children to use or operate this pump and sand filter.
- **DO NOT** store chemicals around your pool. Chemical spills and fumes can weaken swimming pools and/or spas.
- Any modifications of this equipment of the filter requires prior consent from the supplier's original replacement and accessories authorized by the manufacturer to ensure a high level of safety. The supplier assumes no liability for any damage or injuries caused by unauthorized replacement parts and/or accessories. In the even of defective operation or fault, contact the supplier or the nearest authorized service agent.
- When setting up pool water turnovers or flow rates the operator must consider local codes governing turnover as well as disinfectant feed ratios
- **DO NOT** increase pump size; this may increase the flow rate through the system and exceed the maximum flow rate stated on the drain cover.
- Pumps improperly sized or installed or used in applications other than for which the pump was intended can result in serious personal injury or death. These risks may include but not be limited to electric shock, fire, flooding, suction entrapment or serious injury or property damage caused by a structural failure of the pump or other system component

# DISCLAIMER

## PLEASE READ THE FOLLOWING CAREFULLY
